# LONDON SQUARE

## MAKING LONDON GREATER

Since London Square was established in 2010, we have focused on our ambition to become the capital's most dynamic developer in a highly competitive residential property market.

London Square, which has an outstanding track record for tackling complex sites across Greater London, delivering a mix of affordable and private homes for sale, community facilities and commercial space, currently has 1,018 homes in production, and a land pipeline of 2,356 homes representing £1.3bn in gross development value.

Our sites are in prime locations with good transport links across the capital, providing new homes in places where people want to live. Each scheme is bespoke, combining inspiring architecture, clever design and specification, and the highest standards of energy efficiency.

Our award-winning developments range from homes for first-time buyers in key locations to cool city apartments, from smart family homes to grand restoration and conversions.

Creating a sense of place for our buyers is embedded in every London Square development, transforming former forgotten corners, derelict buildings and brownfield sites into smart destinations, breathing new life into each local area.

We work with existing residents, schools and businesses to make our developments part of the local fabric and take great pride in fostering the community spirit of the great squares of the capital and the legacy they have created.

## Adam Lawrence

*Chief Executive*

When I launched London Square, I set out to create a company with strong values exemplifying what I call "Old School Principles". A company with exacting disciplines and the highest of standards.

My inspiration was London's beautiful squares, created by the great architects of the capital. I wanted to reflect the sense of legacy and community created over the centuries by these prized green pockets, fringed by homes where people really want to live.

We have just marked our 10th anniversary and a decade of development has given the company our own heritage of 16 award-winning schemes and more than 50 glittering prizes.

Our latest development is our first in Hertfordshire and we have chosen the popular destination of Watford, recently ranked by Zoopla as the number one commuter town. We are transforming the site of a former BMW car showroom in St Albans Road with 72 stylish new homes, designed to blend in with the more traditional lower rise residential style of the area, with attractive brick facades and pitched roofs, set in landscaped communal gardens, with a secure car park. The homes comprise two studios, 22 one bedroom and 48 two bedroom apartments, all with exceptional design and specification. London Square Watford is in the heart of the town and close to excellent shops and abundant green spaces and parks. We take pride in building our homes in well-connected places and Watford has exceptional transport links, with fast trains to Euston taking 34 minutes and Heathrow just 24 minutes by car.

When I look at a map of the capital and the commuter belt of Hertfordshire, Surrey, Kent and Essex - there is now a little bit of London Square in most boroughs – and that makes me very proud.
